

BIOLA MEDIA CONFERENCE 2010 EVENT PARTNER PACKAGES “WORLDS COLLIDE”

The Biola Media Conference is recognized as THE premiere event for Christians working in the entertainment field, and its impact is being felt globally.

The Biola Media Conference has become the largest national conference for entertainment professionals of faith working in mainstream media today. For 16 years it has changed the way Christians interact and work within the entertainment field by featuring major industry keynotes, and workshops, that explore the innovations and issues facing producers, writers, directors, and other media professionals. www.biolamedia.com

The annual event draws 600+ attendees in search of professional training and instruction from some of the most influential individuals in Film, TV, PR, Media Marketing, Management and Digital Media today. Topics cover every aspect of media related careers, technologies, and ministries from the creative, to the financial, to the production process.

The 16th Annual Biola Media Conference will take place on Saturday, May 1, 2010 on the CBS Studio Center lot in Hollywood. This location creates the perfect environment to learn, engage, and interact with today's leaders of the film, television and digital media industries.

WORLDS COLLIDE: Finding Answers in Today's Media Chaos.

This year's BMC explores the collision of old and new media as the industry experiences one of the greatest periods of chaos and crisis in its lifetime. We'll look at how technology and the current economic crisis have set the stage for the collision of traditional models and new digital possibilities. Noting that in periods of dramatic change, often the worst economic times become catalysts for our greatest innovations; we'll explore how creativity, authenticity and innovation will become our pathway to productivity, and how that platform should be harnessed, managed and shared.

General and Breakout Sessions will be conducted onsite in several of the soundstages on the lot. This year will again feature significant time for personal connection and networking, much of which will take place on the CBS “New York Street” set location featuring a media fair and networking events.

The entire event is sponsored by the Cinema and Media Arts Department at Biola University, one of the most effective and successful entertainment degree programs in the country. Located only 30 miles from the entertainment capital of the world, Biola attracts and supplies unprecedented access to industry professionals and opportunities, bringing an integrated standard of professionalism and Christian faith that is helping to change our world.
